Downtown National City Specific Plan CITY COUNCIL MEETING November 7, 2017

Agenda

1) PLAN OVERVIEW

4) CIRCULATION

2) LAND USE

5) DESIGN GUIDELINES

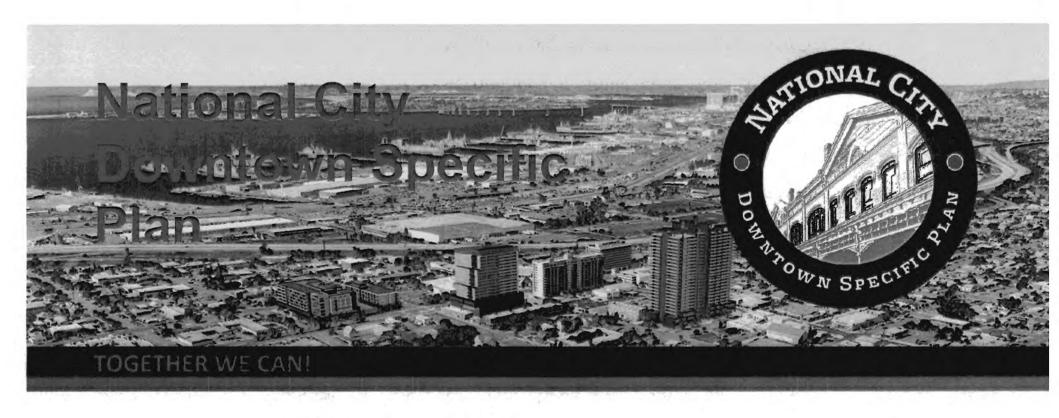

3) PARKING

6) CEQA/REVIEW PROCESS

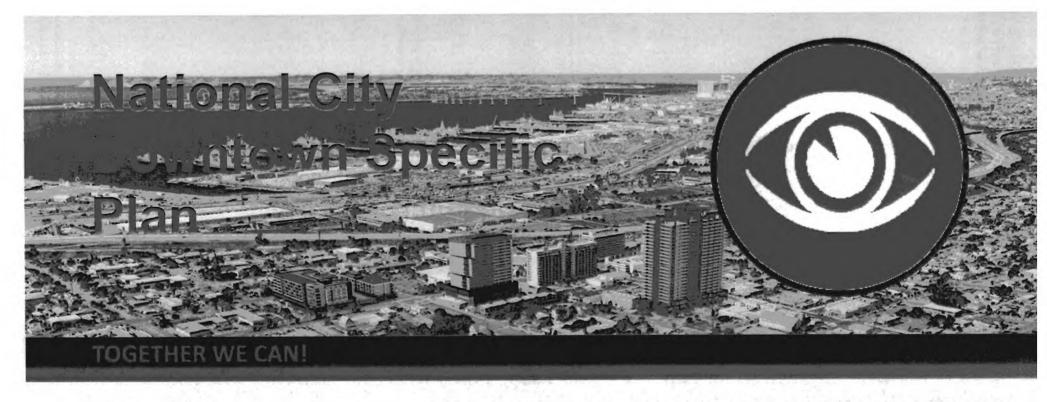

7) STAFF RECOMMENDATION

<u>Action Requested-</u> <u>Staff Recommendation:</u>

Adopt the Ordinance amending the Downtown Specific Plan based on updated draft with Planning Commission recommendations.

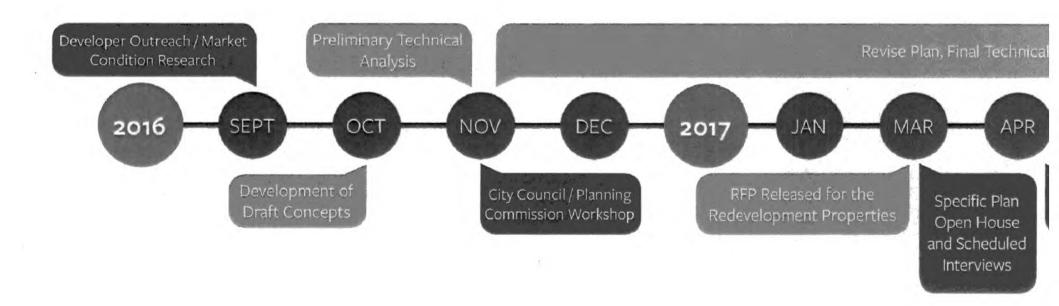

1 Plan Overview

- Funded through a SANDAG Smart Growth Incentive Program Grant to provide guidance for the 158-acre downtown to:
 - o Integrate smart growth policies and transit supportive planning
 - o Provide innovative smart parking policies & reduction bonuses
 - o Revitalize downtown by encouraging investment
 - o Enhance the public realm through design guidelines
 - o Improve mobility options and efficiencies

Project Schedule

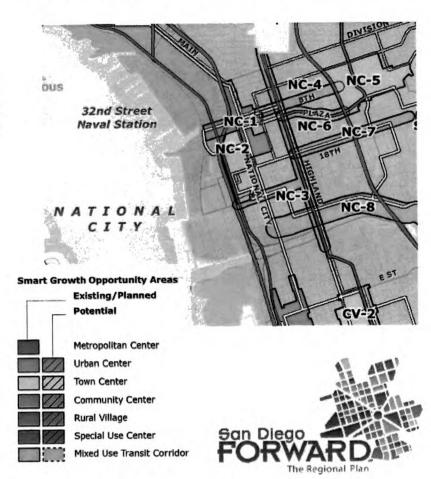

Smart Growth Incentive Grant Cycle 3 (2015) Scope

Potential strategies and policies of the DSP Amendment that will help achieve Smart Growth and Smart Parking objectives include:

- Reduce parking requirements if project includes Parking &Traffic Demand Management strategies;
- Support shared parking agreements for developments that are within an acceptable walking distance of an off-street parking facility; and
- Consider a parking district and management plan that is intended to manage parking assets and avoid neighborhood parking impacts.

What we heard from initial comments and input

- Simplify plan and make "user-friendly."
- Promote housing that serves the community.
- · Allow for micro-units.
- Allow bonus units or reduced parking if parking programs & amenities are added.
- Allow a process for density transfer.
- Protect intact neighborhoods and allow for transitions between densities.
- Offer a streamlined process that encourages investment.

Downtown Specific Plan Amendment Goals and Objectives

Economic Investment Objectives

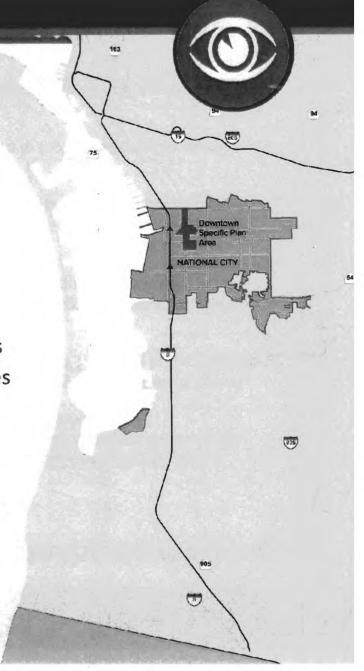

- Encourage investment in downtown, provide value & encourage partnerships between land owners, developers, businesses & residents
- Coordinate with the Navy, colleges & other institutions to create a more vibrant downtown by encouraging more persons to live & shop in downtown
- Adjust zoning, land uses and development regulations to increase opportunities for the redevelopment parcels as well as other downtown parcels

• The Plan will **not** change:

- o Land use / zoning
- o Street classifications
- o Floor Area Ratio maximums or minimums (FAR)
- o Density related to 5,500 units (300 built since plan adopted)

• The Plan **proposes** to change:

- o Defines height restrictions to be more consistent with FAR
- o Redefine "ground-floor retail" as "street activating uses"
- o Suggest an adaptive reuse policy for "main street style" buildings
- o Propose a transfer of development rights in certain circumstances
- o Establish 5 proposed design districts and supporting guidelines
- o Improve review process to include ministerial review options
- o Suggest various intersection and streetscape enhancements
- o Plan for a shuttle system, expanded bike and pedestrian options
- o Implements Parking Action Plan for downtown area
- o Considers methods for attainable housing / affordable by design
- o Allows Institutional (schools) uses with Conditional Use Permit

Attainable Housing

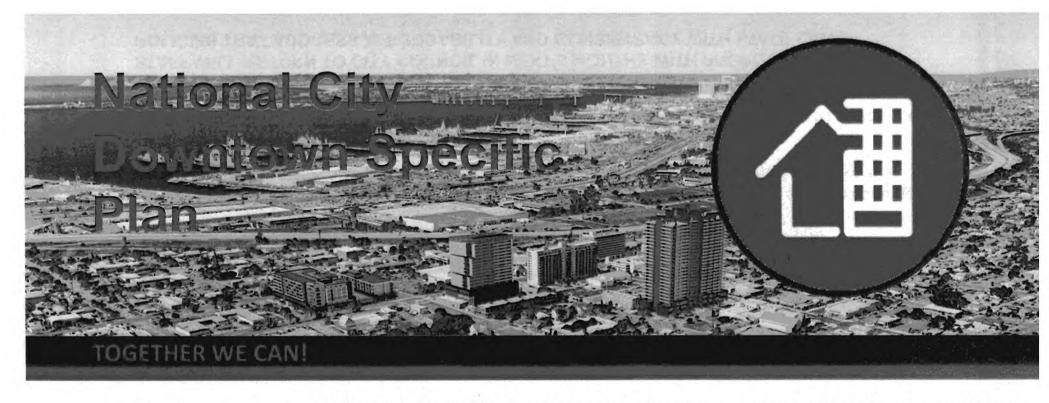

Numerous bills have passed in 2017 to promote the development of attainable housing in California:

- SB-2: The Building Homes and Jobs Act creates funding by imposing up to a \$225 on certain real estate transactions. Over the next five years it is anticipated to raise a total of \$5.8 billion. These funds will support homelessness programs and create mixed-income multifamily housing.
- SB-3: This bill would authorize \$4 billion in bonds to finance existing housing programs. This bill would authorize \$3 billion in bonds for the construction of new low-income housing and \$1 billion to the Cal-Vet Farm and Home Loan Program.
- SB-35: Eliminates multiple local planning reviews for projects that meet certain zoning and affordability standards in jurisdictions with lagging housing production rates. The bill also requires qualifying projects to meet prevailing wage standards for construction workers.
- AB-73: Provides local governments with incentives to rezone developments to increase housing density near transit and job centers. At least 20 percent of the housing projects must be low- or middle-income residents. If zoning standards are met, permits will be granted without delay.
- AB-1505: Restores the ability of local governments to require developers to include affordable rental
 units, after an appellate court decision cut off that tool in 2009.
- AB-1521: Owners must accept a qualified offer to purchase the apartment complex from someone who pledges to continue renting the home to low-income residents.

Attainable Housing

- AB-571: This bill would authorize the California Tax Credit Allocation Committee to allocate the
 farmworker housing credit even if the taxpayer receives federal credits. Farmworker housing is
 redefined as housing in which at least 50 percent of the units are occupied by farmworkers.
- AB-1397: This bill would require the inventory of land to be available for residential development to meet the locality's housing need for a designated income level.
- SB-166: Pushes cities and counties to plan for their share of low-income and moderate-income housing needed in the region.
- AB-879: This bill instructs cities to determine how long it takes developers to build their projects after they have been approved and then take steps to shorten that time.
- SB-167: Cities that do not comply with a court order to allow development will accrue fines of \$10,000
 per housing unit.
- AB-678: The Housing Accountability Act prohibits a local agency from disapproving, or conditioning
 approval a housing development project for very low, low, or moderate-income, or an emergency shelter
 unless specified written findings based upon substantial evidence in the record are made.
- AB-1515: This bill would specify that a housing development project or emergency shelter is deemed
 consistent with an applicable plan, program, policy, etc. similar if there is substantial evidence that
 would allow to conclude that the housing development project is consistent.
- AB-72: Gives the State housing department more authority to investigate cities that do not follow their housing plans and refers cases to California's attorney general for possible legal action.

STAFF WILL RETURN TO CITY COUNCIL IN NEXT 6 MONTHS WITH PROPOSED HOUSING POLICIES THAT ADDRESS AFFORDABILITY AND CONSISTENCY WITH STATE LAWS

2 Land Use

- The plan will continue to focus on encouraging a variety of land uses:
 - o Mixed uses help to encourage more local services, jobs and places of business and allows the market to decide best use.
 - o This amendment continues to allow for all previously allowed uses.
 - o The form of the buildings and FARs are more important than dictating the preferred land uses or percentages of mixed uses.

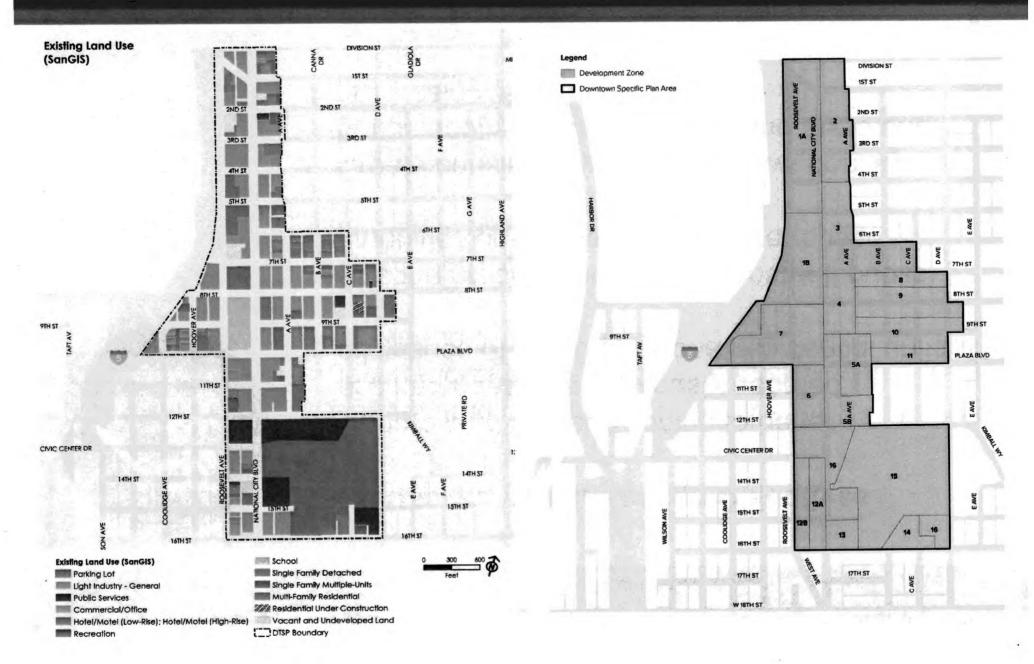

Downtown Specific Plan Amendment Goals and Objectives

Land Use and Urban Design Objectives

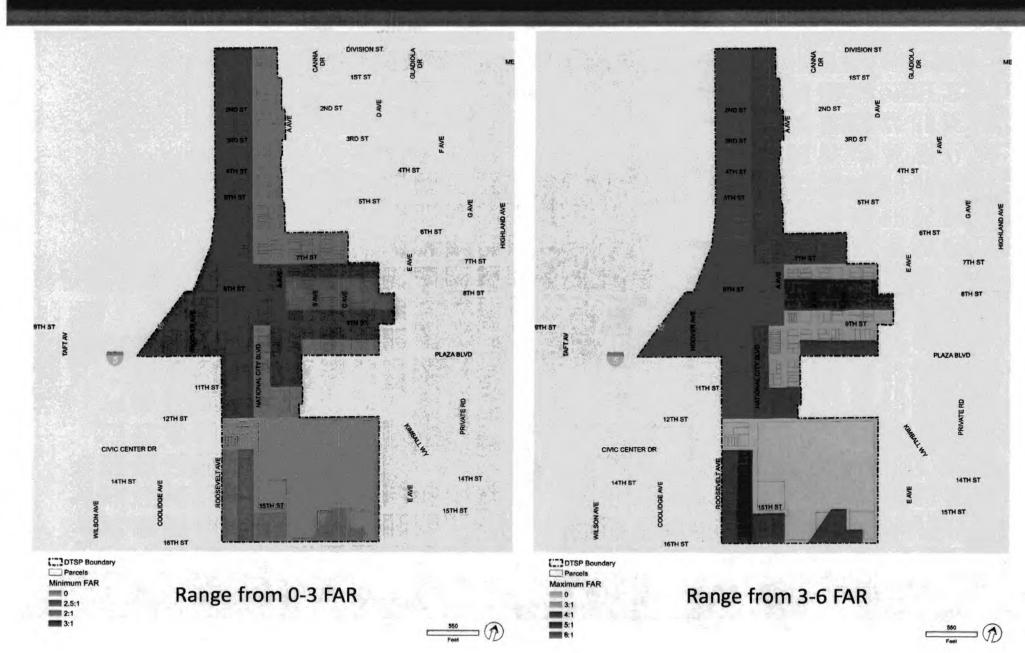

- Update land use and zoning to better accommodate the previously adopted allowance of 5,200 additional residential units
- Adopt a process for density transfer if public amenities or unique buildings are reused
- Create consistency with state laws density bonus applied to transit areas and ministerial processing requirements

Existing/Proposed Development Zones

Single family homes need adjacent transitions of land use, form, height and intensity;

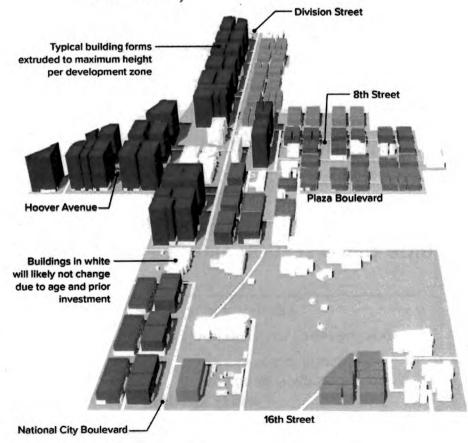

Historic structures and "Main Street Type" character buildings, should be allowed a transfer of development rights; and

"Main Street Type" character buildings should be allowed a development bonus for adaptive reuse that preserves "Main Street" character while meeting minimum FAR & urban design guidelines.

3 Parking

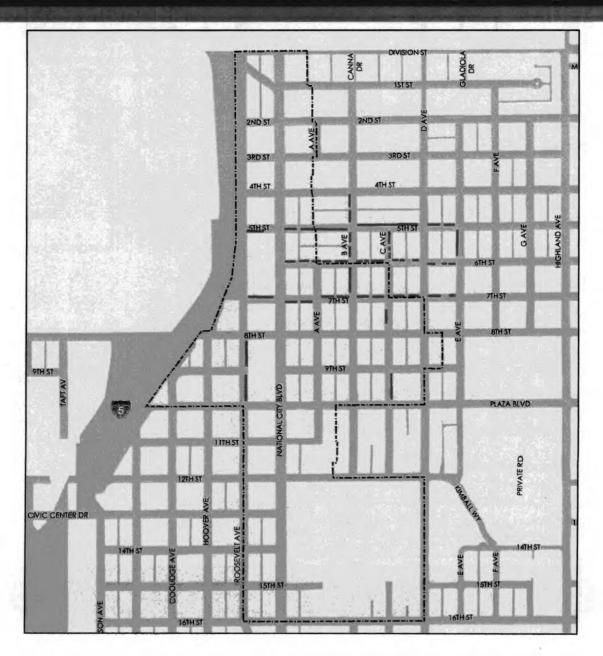

- Supports and encourages mixed-use, compact development.
- Plans for Future Growth and Parking Demand.
- Creates flexible recommendations that encourages innovation, recognizes trends, builds partnerships, assures feasibility and provides increased management to limit parking impacts.
- Recommends short, mid, and long term solutions.

ma Action Plan

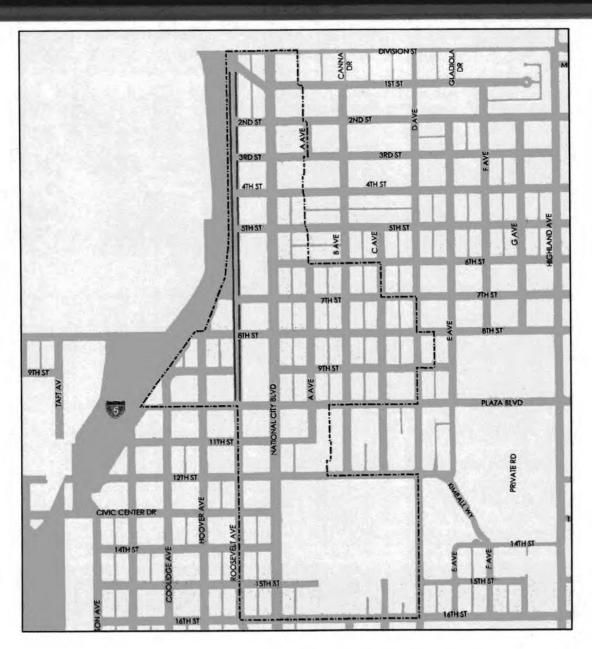

- Approved by City Council on June 20, 2017 to initiate the first phase of parking management implementation for Downtown National City
- Designed as a two-year parking pilot program that considers unique local conditions and national best practices
- Parking Management Strategies to enhance parking enforcement, capacity and utilization:
 - New enforcement technologies
 - Online permit parking system
 - Conversion of parallel parking to angled parking
 - Single space parking meters

Locations for Conversion of Parallel Parking to Angled Parking

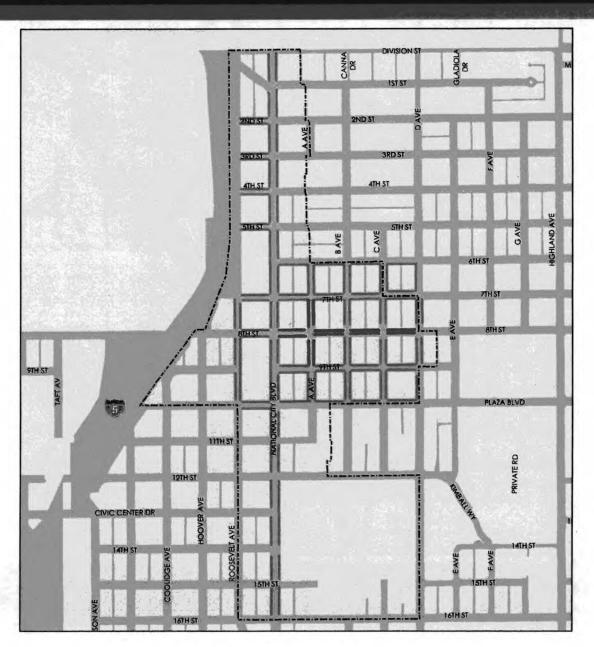

Locations for Oversized Vehicle Parking Prohibitions

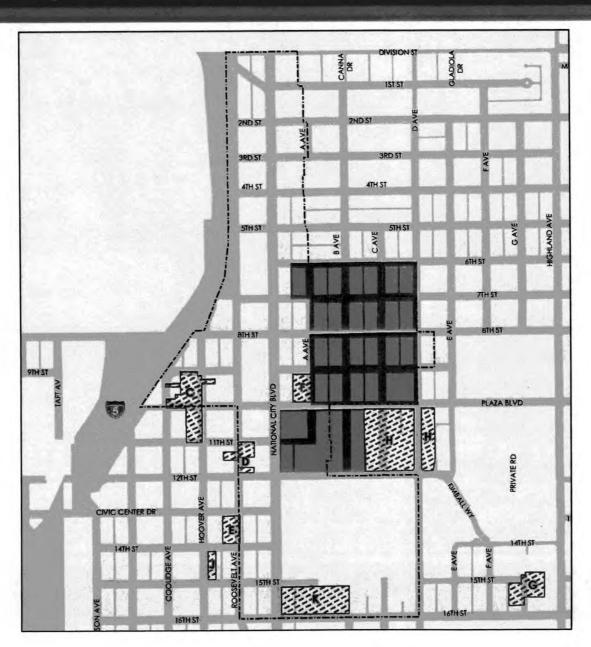

Locations for Single Space Parking Meters & Time Restricted Parking

Locations for Expansion of Residential Permit Parking

Parking Management Implementation

Phase 1 (1-3) Years	Phase 2 (3-5 Years)	Phase 3 (5-20 Years)
Review enforcement program and ensure consistent enforcement	Transition to digital permitting	Add parking availability signage
Invest in enforcement technology	Complete angled parking conversion	Establish In-lieu fees
Implement online permit management system	Implement active monitoring	Continue active monitoring
Begin converting parallel parking to angled parking	Enhance enforcement	Plan infrastructure for autonomous vehicles
Review restrictions & fines	Implement parking/transit shuttle system	Implement shares parking
Establish parking bonus system for off-street parking/shared parking	Create parking manager position	
Reform off-street requirements	Initiate and refine the parking bonus system	
Establish paid parking	Integrate parking updates into budget	
Expand residential permit zones	Establish a downtown parking benefit district	
Implement oversized vehicle parking restrictions	Invest revenue	

Parking Trends Considered

- Land use policies should consider 10-minute walking / biking neighborhoods and overall driving distances in order to reduce vehicle miles traveled.
- Focus on "park once / visit many destinations" planning philosophies.
- Autonomous vehicle's will affect on roadway capacity & parking resources.
- Drop of zones for rideshare / shuttles / autonomous car dropoffs are needed.

Smart Parking Example

113 persons/day

4 Circulation

- Circulation Changes are focused on:
 - o Community Corridors
 - Alternative Transportation Modes including Walking,
 Biking, Transit and Shuttle
 - o Proposed Improvements are Focused on Roosevelt Avenue and 8th Street

6 CEQA / Review Process

- Suggested Process Changes:
 - o Allow for Transfer of Development Rights
 - Allow for Unit Bonus or Parking Reduction based on Developer Selected / Funded PTDM Choices
 - o Identify 3 Levels of Project Review including Level 1 Ministerial Review
 - o Suggest Staff / Department / Professional Review for Design Guideline Conformance

Environmentalia (Capalantina Capalantina C

CEQA Review Process for the Amendment

- Project builds on existing 2005 Specific Plan & 2012 General Plan
- State legislation and CEQA guidance allows for using previous CEQA review
- Changes found in amendment analyzed by an initial CEQA checklist
- Only traffic had the potential of new impacts
- Supplemental traffic memo prepared indicated no new impacts with the implementation of proposed project elements, improvements and policies

Traffic / Parking Control Mechanisms

- Adoption and implementation of the Parking Action Plan
- Integration of the density bonus / parking reduction PTDM element
- Requirement for traffic analysis if 5,500 units exceeded OR development zone units exceeded OR development transfer or any variance that would change standard parking requirement or trip generation of the project

Overall Processing Goals:

1) Identify a ministerial review process.

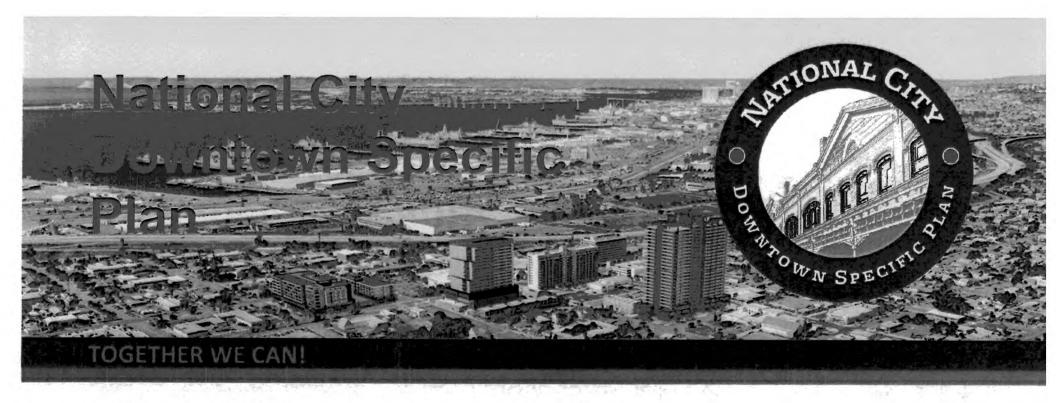

- Most developer's want to develop a ministerial process since discretionary adds substantial time, costs and lack of confidence in a final outcome.
- State affordable housing & companion unit legislation requires a ministerial process.

2) Offer efficient processing & CEQA review.

- Makes housing attainable & affordable by design.
- Attracts investment & delivery of needed housing
- State legislation allows for streamlined CEQA for infill projects in transit supported areas.

3) Protect neighborhood from impacts.

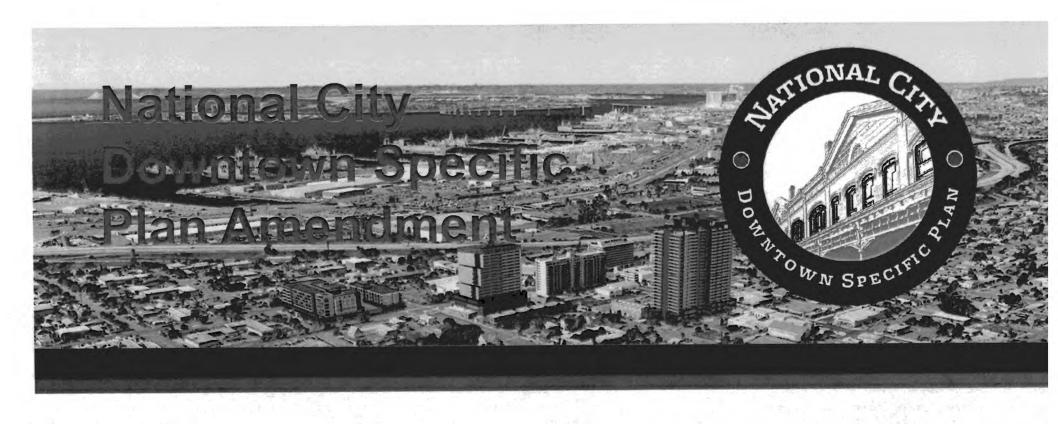

- Need parking management and enforcement.
- Require traffic analysis when exceeding standards.
- Establish transition zones near single family areas.
- Institute design guidelines and review process.

Action Item

Staff Recommendation:

Adopt the Ordinance amending the Downtown Specific Plan based on updated draft with Planning Commission recommendations.
